- Discounts up to 65%
- No pre-existing exclusions
- No deductible
- No waiting periods
- No fees
- Everyone qualifies
- Pet meds, too
- Absolutely no cost to users!

How It Helps Your Patients

"I was filling in for a care provider and took our client to the grocery. Our first stop was the pharmacy. As I was watching, our client was getting very upset with the pharmacist. The pharmacist was quoting a \$345 price for a prescription for which she normally paid \$46. The pharmacist agreed to contact the insurance company while she waited. "No change in cost." We left with an extremely distraught client in tears. I mentioned our Free ABC Rx card and went back to the pharmacist. Next thing I know, the pharmacist looked at me with amazement and said "you are never going to believe this!" The Free ABC Rx card not only saved her money, but it brought the cost down to \$17.10 -- 63 percent below the \$46 she normally pays, and 95 percent off the base price of \$345 originally quoted by the pharmacist. Even the pharmacist couldn't believe her eyes - she takes the same medicine! When I explained the success with the Free ABC Rx card, my client started to tear up again - but this time it was tears of joy! She called me her angel and a miracle worker! She was so relieved and happy she proceeded to give the biggest hug ever -- which was a great reminder of why Tom and I got into this business."
